8/10

Bootstrap 4 Framework

EDUCATION

Bachelor of Computer Science

Deakin University – Burwood

2016 – 2018

EXTRACURRICULAR

SoloLearn and Udemy (2017 – 2018)

Explored online courses which have enhanced my fundamental programming skills. Succeeded to create a live website from these experiences.

Leading a rock band (2016 - 2018)

Lead a rock band with 4 other members as the vocalist. Involved organizing rehearsals and gigs. Performed 5 live shows and recorded 2 songs.

CAREER PROFILE

Computer science graduate (*Cloud computing Major*) with 2 years practical experience in programming and web design. Optimized SQL databases and developed programs to improve workflow efficiency for F1 Building Consultants. Passionate about web design and maintains a financial web application during spare time.

EXPERIENCE

Full Stack Developer and administration

F1 Building Consultants | Balwyn North | January 2019 - Present

- Developing macros on existing databases to ensure work efficiency which has saved the company money and reduced human error.
- Assisted with administration which has generated new IT solutions for the existing software.

UX/UI Developer

Capstone Project | Deakin University - Burwood | March 2018 – October 2018

- Leading the dynamic front-end design using technologies such as Bootstrap 4 and CSS media queries to ensure compatibility on multiple devices.
- Working under strict deadlines using SCRUM methodology to effectively meet deadlines and to reflect on improvements.

Front End Developer

IPAN (Placement) | Deakin University - Burwood | July 2018 – October 2018

- Conducting user panels and questionnaires on a target group (age 60+) which assisted with changing the design of the web prototypes.
- Designing high fidelity prototypes using the Adobe Creative Suite.

Food Service Attendant

Donvale Rehabilitation Hospital | Donvale | August 2017 – December 2018

- Nominated for the employee of the month through great customer service and putting the customer first.
- Using strong communication and teamwork skills to ensure a ward of 90+ patients got their correct meals in short-time constraints.
